After a long selection procedure, Volkswagen has decided to start a collaboration with Sonic Equipment.

Especially for Volkswagen Sonic has developed 2 toolboxes, based on the S9 and S12 toolbox. These toolboxes will be delivered in the Volkswagen RAL colors and can be supplied with foam inlays specially developed for Volkswagen. The range consists of a basic tool set in foam inlays and additional extension sets for Audi, VW and body. These products are exclusively available at Volkswagen and their distribution centers.

## Keys.

These keys have an adapted profile on the short, curved side. These recesses ensure that the force is better divided and prevents damage to the hexagon socket when loosening or tightening the bolt. A magnet is mounted in the ball head on the long side, making it easier to remove or insert the bolt in hard to reach places. This key set is a "must have" for the modern technician.
